Periodic occupational health survey (POHS) Sustainable employability analysis (SEA) Occupational health survey youth (OHS-Y)

THE QUESTIONS ON THIS LIST FORM PART OF THE OCCUPATIONAL HEALTH SURVEYS. A PREVENTATIVE MEDICAL SURVEY, WITHIN WHICH YOU TAKE STOCK TOGETHER WITH THE OCCUPATIONAL HEALTH PHYSICIAN. ARE YOU IN GOOD SHAPE? OR ARE THERE RISKS FOR YOU IN THE FUTURE? WHAT TO IMPROVE? HOW TO LIVE A HEALTHIER LIFE? WHICH WORK ACTIVITIES WOULD SUIT YOU BETTER? THE OCCUPATIONAL HEALTH PHYSICIAN WILL PROVIDE YOU WITH A PERSONAL ADVISORY REPORT ONCE ALL THE DETAILS HAVE BEEN PROCESSED. THIS REPORT WILL INCLUDE YOUR TEST RESULTS AND THE POINTS OF ADVICE.

The questionnaire features a general section and a section with questions about your health, work and career. Filling in the questionnaire will take an average of 20 minutes.

#### Instructions for filling in the questionnaire

- Read each question carefully and choose the answer which suits you best.
- Don not think about it for too long, go with your instinct.
- Some questions will include an explanation or instructions.
- Write down your profession or job for question 5b.
- You can skip the black underlined questions if you usually work at the site office or in the office.
- A few of the questions will link into other questions. Only answer these if this is requested when answering the previous question.

#### Your privacy is protected

The occupational health physician will only use your answers for the survey and the subsequent advice you are issued with. The occupational health physician cannot share information with your employer or others without your express permission. The occupational health services will store the questionnaire in your medical file. This file also includes all other information resulting from medical tests, lab tests, preventative consultations and workplace investigations.

The occupational health services will provide Volandis with details of the questionnaire, a number of the test results and the conclusions drawn by the occupational health physician. This will be done without sharing any of your personal details like name, date of birth, address and notes made by the occupational health physician. The occupational health services and Volandis are committed to protecting your privacy together with 'ZorgTTP'. They are specialists in optimally protecting sensitive personal data. Volandis uses the data for scientific and statistical research. Attention is paid to diseases and health complaints which are related to working in the construction industry. Specifically with respect to our three pillars: work safely, have fun and look ahead. You will never be personally recognisable.
